Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to give advertising "notices" free any more than a merchant can toss over his counter free gifts of dry goods or shoes. A newspaper is a legitimate business concern. Its columns are its stock in trade, and advertisements should be paid for, no matter in what part of the paper they appear.

The Continued Calls

UPON THE LEDGER for free notices have become so burdensome that we are forced to publish the following terms:

For Notices of Nuptials.

Marriages, betrothals, or other public entertainments where a fee is charged, and for ordinary notices, resolutions of respect, etc. The Ledger will charge FIVE CENTS A LINE, and hereafter this will be the invariable rule. This, however, is a concession.

Does Not Include

notices of Lodge meetings or Church services, which must not exceed ten lines.

Avoidance of Disputes.

Misunderstandings are unpleasant. The rate for *Business Notice* in this Ledger is 14 cents a line for the first insertion and 5 cents a line for subsequent insertions. A customer orders a five-line notice inserted in the paper. "I'll tell you where to take it," he says to the bookkeeper. But he forgets all about it. The notice runs for two months—24 times—the bill is \$112. When he finds it out there is a "kick" and a controversy; followed probably by an icy feeling. Now to obviate this trouble, no "full-rate" notices will be accepted hereafter. Let's have a definite agreement at the outset and the termination will be pleasant and all around.

All matter for publication must be handed in before 9 o'clock in the morning of each day.

If you have an item of news, please call up THE LEDGER, Telephone 33, and send it in.

We Must Make Room

In anticipation of a big fall trade, and realizing that goods pertaining to our lines will advance, (a great many have already), we bought early and largely. We are already beginning to receive shipments. Moreover it will not be long before our great line of Men's Shoes will come in, so you see we must make room. Now, if you will look in our windows and see the line of suits we are offering at \$10 you will assist us in making room. All of our Fancy Cheviot Suits, in Checks, Plaids, Stripes, etc. Suits that we sold at \$15, \$15.50 and \$15.50 in this sale.

No house in the state ever did or ever will offer a line of Suits like these for the price.

--- \$10.00!

It is the greatest sacrifice sale we ever made, but as our patrons will be benefited, and it secures us room and money, we will only be too glad to have you take advantage of this sale. We have no room to quote prices on our more medium grades, but the entire stock will be sold at proportionate prices.

Please bear in mind this: No Suit will be sent out on approval. No Suit will be charged. Only

--- CASH!

Will buy the goods during this sale. Money, however, will be cheerfully returned if goods don't suit upon home examination.

MAYSVILLE WEATHER.

What We May Expect For The Next Twenty-four Hours.

THE LEDGER'S WEATHER SIGNALS.

Wind—Tending—Fair.
Temperature—70-80.
With Black Above—WILL WARMER grow.
If Black Beneath—COLDER will be.
Unless Black's shadow—no change we'll see.

The above forecasts are made for a period of thirty-six hours, ending at 5 o'clock tomorrow evening.

Be sure and see the new show tonight. Ed. G. Webster, a native of Fleming, died recently at Vermont, Ill.

The Brookville Railroad Company now have in their property thirty-two men.

Mr. Charles Hauck has been ill at his home on Forest avenue for several days.

Juneau Yukon get Soda Water as cold as Klondike at Chenoweth's Drugstore?

Mrs. Daisy Forman Wilson lost a four-year old son at Louisville this week by death.

On account of ill health Mr. S. A. Shanks has decided to quit business. Watch Monday's Ledger for his big ad.

We often wonder why the gent that invented the lightning-bug couldn't use the same stuff on mosquitoes.

Rev. G. W. Watkins of Washington has returned from Boone county, where he has been holding meetings. Thirteen young men were added to the Church during the services there.

The melon-eating contest at the Park Theater last evening was extremely funny. Ludie Thompson succeeded in disposing of his piece in very short order and was declared the winner.

A shooting affray between two young Negroes, Ike Donaldson and Kirby Young, took place at Poplar Springs, in Fleming county, Thursday morning and resulted in both being dangerously wounded.

Special trains to Parks Hall Campmeeting leave Mayville Sundays, August 8th and 15th, at 8 a. m. and 6:15 p. m. Returning, leave Campgrounds at 4:15 p. m. and 9 p. m. Round-trip rate 75 cents.

The star feature of next week's bill is Messrs. Bell & Yost, the 18-karat boy, in their high class talking and singing sketch, "Nothing But Money." They are the highest-salaried actors that have ever appeared at the Park.

An example of the cheapness of horse flesh, or rather mule flesh, was given on last County Court day, when a mule, guaranteed to work "kind and gentle any where you put him," was offered for sale to the highest bidder in Springfield, says The Leader. The animal was, after some spirited bidding, finally sold to Messrs. George Clevin and Theodore Campbell for the sum of 25 cents, cash in hand. The young men think they have a bargain, and say they can at least dispose of him to a veterinary as a "subject," as he is possessed of all the ills and afflictions known to muledom.

No-To-Bac for Fifty Cents. Guaranteed tobacco habit cure, makes weak men strong, blood pure. 50c. All drugstores.

Big show at Park tonight. The Aberdeen Yellow Ribbon Fair will this year be held September 30th and October 1st.

Sergeant-at-Arms—John McCarthy. Color Bearer—John Concanon. Grand Marshal—John Kerwin.

Supervisors—D. Fitzgerald, J. F. Moran, Jerry McNamara.

Don't Tobacco Spit and Smoke Your Life Away. To quit tobacco easily and forever, be magnetic, full of life, nerve and vigor, take No-To-Bac, the wonder-worker, that makes weak men strong. All drugstores, 50c or 1c. Cure guaranteed. Best and simplest free. Address: Sterling Remedy Co., Chicago or New York.

Park Theater. A large audience was present at the Park last night. A number of amateurs appeared in conjunction with the regular troupe. A laughable part of the entertainment was the watermelon eating contest. Taken as a whole, amateur night is certainly a success.

Eyesight

Is of such great value that one ought to take more than ordinary precautions to guard against every possible trouble.

If you have even a remote suspicion that there is any trouble with your eyes it will be for your own best interests to have your vision tested and trouble, if any, removed.

Very simple troubles may develop serious results if not properly treated.

Ordinary failing eyesight receives our most careful attention, both as to glasses and frames.

It's just as important to have the right frame as the right glass, and from our large stock we can give you the correct thing in either Gold, Silver or Steel.

We make no charge for examinations, and if yours is a case requiring the services of an oculist we will frankly tell you so.

YOU can't prove by this enterprising Mayville firm that business has not improved and that confidence has not been restored. Mr. DAVID HICHERER of the Oddfellows Hall Clothing Store informs THE LEDGER that their sales for July, 1907, were 120 per cent. larger than they were in 1906.

SECRETARY SHERMAN has been talking again. In his recent visit to New York he astonished the people who had been saying unpleasant things about him by such a vigorous and frank discussion of international topics as has not been heard from any occupant of his position in many years. These unofficial utterances, coupled with that official document recently sent to Ambassador HAY, quite upset the people who were endeavoring to make the country believe that Mr. SHERMAN is not fitted for the chief position in the McKinley cabinet.

The end of uncertainty regarding duties on imports gives greater confidence alike to those who have opposed and those who have favored the change. The great strength in stocks, particularly in those of the Granger list, reflects assurance of heavy crops. The remarkable rise in wheat, notwithstanding that assurance, is based on heavy buying for export and belief that foreign demands will be large. To these must be added another element of confidence scarcely observed a week ago. The heavy increase in receipts of gold, whether from one side of the Alaska border or the other, swells deposits at the Mint and in the banks of this country, and if the yield from new regions answers current expectations, may have an influence akin to that of gold discoveries in California. The one reassuring factor, the strike of coal miners, has caused closing of a few manufacturing works for want of fuel, but negotiations for settlement are still pushed with hope.—*Dun's July 24th, 1907.*

EVERYTHING seems to go wrong with the silver advocates. In the nine months since last election the tide has turned against them both in public opinion and in actual happenings. Prices have advanced despite their assertions that they could not do so without the free and unlimited coinage of silver. Nations which had tested free coinage have gone to the gold standard, enormous increases in the production of gold is reported, our commerce is prosperous, and more money has come into the country for our productions than in any former year, the international bimetallic conference which they assumed could not be brought about is practically assured, the Tariff Bill is a law, and the prosperity which they said could not come without free coinage has begun to make its appearance. It is a blue outlook for people who make calamity their campaign cry.

CELEBRATION, AUGUST 10th, 1907.

While agricultural communities, and this is one of them, are the last to feel improved conditions, an improvement is already clearly apparent here. The harvest has been plentiful and well taken care of, and now what is going into market at an advance of 30 cents over that of last year. The hay crop is the largest ever known. Wood is sold at an average of 4 cents per pound higher than last year, and the spirits of the people are improving.

GILBERT & CHAPMAN.

Editors Observer.

LEWISTOWN, MONT., August 21, 1907.

Evidence of returning prosperity are very plainly visible among our people. Last year wool sold at an average not to exceed 6 cents, while this year it is selling at from 10 to 14 cents and may go higher. Taking 11 cents as an average, this means that in this country alone the farmers will receive \$17,000 more for the wool they received last year for their wool, besides an advance of \$1.50 to \$1.75 per head on mutton sheep. Railroad agents and conductors report heavy travel over their lines. Insurance companies report a better business, and merchants also indicate it in their sales and collections.

EDITOR OBSERVER.

Below is a number of letters from leading commercial centers of our country, giving evidence of the revival of business under the new Administration:

STEWART, N.H., August 2d, 1907.

There is no one here. All are employed, and calls for more hands can be found. We have no manufacturing. Capital is to be used in putting up a large creamery.

J. L. STURDEVANT.

Editor Ledger.

TULARE, NEW MEX., Aug. 5th, 1907.

The passing of the Tariff Bill has been the means of instilling new energy into the people here. Cattle, sheep, etc., are all higher in price than for years and the fact that the new Tariff shuts Mexican stock out of this country pleases our stock men immensely.

During the Cleveland Administration the banks here and those in other towns had no money to loan and interest rates were high. Now the banks have a large amount of deposits, plenty of money to loan, and in fact, money goes begging for borrowers.

UNION, OREGON, August 6th, 1907.

There is now in course of construction in this little city a woolen mill which will contain at present two sets of machinery. A telephone system branching from this place is now in course of construction, which will cover a district of over 200 miles. A large creamery plant is also about to be built here. There is no doubt that times are improving and prosperity returning.

There is great activity in the chief lines of business of this particular place and vicinity. A canning factory located here has had an exceptionally good year, more than 600 acres of peas yielding an average of 3 tons per acre at \$25.00 per ton, with 300 laborers in the factory and 1,000 men, women and children pea pickers in the fields. The tomato crop is promising. Wheat is averaging 25 bushels per acre

Foreign Countries With Whom We Have Trade Relations

To Be Made Acquainted With The Text of the New Tariff Law.

Canada Fixes an Exorbitant Rate of Duty on Goods of Every Description Brought by Shippers Entering the Klondike Country by the Way of Alaska.

WASHINGTON, Aug. 7.—The state department has sent instructions to the United States ambassadors and ministers abroad accredited to countries with which we have trade relations that would be affected by the enactment of the Dingley tariff act, directing them to communicate to the foreign offices in their respective posts the text of the act and to call attention to the sections of the new tariff law which provide for the reduction, reciprocity and similar arrangements. This is done in order that there may be a proper basis for the negotiation of negotiations looking to the consummation of some of the reciprocal agreements contemplated in the Dingley act. The ground to be covered by the state department in these negotiations will be difficult to traverse, owing to the subjects to be treated, and the dissimilar conditions existing in various countries with which we have trade relations, so that there can not be any delay in undertaking the task inasmuch as congress has in terms enjoined the beginning of the negotiations "as soon as may be after the passage of this act." So far, it is said no formal responses to our advances have been made, but from our latest news items that come from Europe it is perceived that such overtures may be expected at any moment.

WASHINGTON, Aug. 7.—Representative J. Hamilton Lewis, of the state of Washington, Friday had a conference with the treasury officials regarding the customs matters on the Alaska-Alaska frontier. Mr. Lewis said that he had received information, which he deemed trustworthy, to the effect that the Canadian commissioner of customs in council had issued a special order fixing an exorbitant rate of duty on goods of every description brought by miners entering the Klondike country by way of Alaska. According to Mr. Lewis' information this duty was 15 cents a pound on goods of every character. The treasury officials are in doubt as to the accuracy of this report, but have taken means to ascertain the facts. If however it should be found to be true, the action of the department in establishing a branch custom house at Dena would be reconsidered and steps taken to protect the rights of miners in the territory.

WASHINGTON, Aug. 7.—The navy department Friday directed the preliminary acceptance of the contract for the construction of a battleship, built by the Union Iron works at San Francisco. There had been some question as to the location of the plant, but the fact that the machinery was over weight, in which case the contract price for delivery of the ship would be paid. It was shown, however, by an engineer examination, that the additional weight was attributable to changes in plan that benefited the machinery and added to the speed of the boats, so no deductions were made.

Wheel Blockade Threatened.

KANSAS CITY, Mo., Aug. 7.—The union of the Kansas City and Galveston, Tex., railroads, which has been threatened for some time, is now being actively pushed. It is said that the Galveston and Gulf roads are to be added to the plant that benefited the machinery and added to the speed of the boats, so no deductions were made.

Price of Coal Goes Up.

PITTSBURGH, Pa., Aug. 7.—Prices for coal have moved up ten cents a ton since Thursday, the assigned reason being that the prospects are that the area of the strike will expand and embrace the northern and central Pennsylvania districts. Coal is being hoarded for possible future demands, when prices will be still higher. Bidding prices are \$1.10 for run of mine in barges and cars, Pittsburgh, and five and six cents a bushel for slack in the river.

Settled in a Horrible Manner.

ST. LOUIS, Aug. 7.—Mrs. Lena Davis, of Hammond, Ind., who has been visiting her sister, Mrs. James Higgins, of this city, for the past few weeks, committed suicide in a horrible manner Friday. She took three ounces of arsenic and a small quantity of carbolic acid and suffered excruciating agony until death ensued. It is stated that Mrs. Davis had trouble with her mother-in-law in Hammond, Ind., and that it preyed upon her mind and caused her to kill herself.

Deaths in Montgomery, Ala.

MONTGOMERY, Ala., Aug. 7.—Four more smallpox cases, all Negroes, were taken to the pest house Friday. There are now about 300 cases there and about 35 persons at the house of detention. About 13,000 persons were vaccinated here with a week and all but every body carries a scar left arm.

MINERS WIVES

Take an Active Part in the Gigantic Strike.

They Do Persuasive Work Among the Wives of the Working Diggers.

Deba Will Pay No Attention to Judge Jackson's Injunction—No Denunciations to the Working Women.

PITTSBURGH, Pa., Aug. 7.—Eugene V. Deba, who addressed the large miners' meeting on the Duquesne wharf Thursday night, left Friday for Erie, Pa., where he speaks Friday evening. Before leaving the city Mr. Deba denounced Judge Jackson, of West Virginia, for issuing an injunction restraining him from interfering in any way with the Monongahela Co. employees. He declared that this injunction restrains him from walking on any of the public highways leading to the mines of the Monongahela Coal and Coke Co. It is most sweeping, and none other can be compared to it. This injunction annihilates the right of peaceful assembly, and effectively suppresses free speech.

If it is sustained, it sweeps away all constitutional safeguards. It delivers us, bound hand and foot, to corporate capital. I hold the injunction and the judge who issued it in utter contempt. If I have occasion to raise my voice in behalf of the famishing miners in Jackson's jurisdiction I propose to do so, or at least to attempt, totally regardless of this infamous injunction. The force of the preceding is that the injunction is issued by a judge. It ought to come direct from the coal operators, and at least by popular vote, not in the infancy of the proceeding.

In reference to the charge that the deputies now on guard at Duquesne are being forced to work at the point of revolvers, President Dolan stated that the matter had been cleared up in the hands of the coal operators. It was proved that the miners' officials would go into court and sue for an injunction restraining the deputies. Said he: "They have no right to compel any man to go to work, and we will not stand it. I have in my pocket the names of many of the men who were treated in this manner, but prefer not to give them now for fear the men will suffer."

The coal company discovered a new sort of missionary work among the miners Friday. Wives of many of the campers are in the field now. They have been arriving for several days, and now there are about twenty of them scattered about through the Plum, Sandy and Turtle Creek settlements. The women are armed with needles, thread and wheeling division regions and do missionary work among the miners' wives. They have been in the women's houses, and the men are denied this. Deputies are stationed all along the property line with instructions to arrest any man who attempts to pass into the houses. The campers claim that the effect of the female missionary work will be apparent in a day or two.

VALUABLE INVENTION

Lost to the Commercial World by the Death of the Inventor.

NEW YORK, Aug. 7.—A special to the World from New Haven, Conn., says: With the recent death at Naugatuck of Herbert E. Fowler, there has been lost the secret of a valuable invention, promised to be of great value to the commercial world. It was a process for making an electrical deposit of copper from a solution upon wood or any other rigid or semi-rigid substance. This process was made possible by coating the wood with a thin layer of copper plated with a liquid preparation, the secret of which was known to Fowler alone. Every means had been used to induce him to patent the invention, but he declined, fearing he might lose the secret.

A Chicago company was recently formed which offered to take up manufacturing with copper and silver extensively, but conditioned their offer upon the patenting of the invention. Their proposition was sent to Mr. Fowler, but before an agreement had been reached the inventor died.

More Miners Brought Out

MORONGUELA, Pa., Aug. 7.—Between 300 and 400 striking miners marched on the Buncala mine Friday morning, headed by the G. A. R. band of this place. The band was composed of miners from Calabaz, Black Diamond, Webster and other points in this vicinity. The Buncala miners were brought out and the strikers established a camp to see that work is not resumed. The strikers are quiet and orderly.

Secretary Sherman Leaves for Washington

NARAGANSSETT, R. I., Aug. 7.—Secretary of State John Sherman, accompanied by his private secretary, left this city Friday morning for Washington at 7 o'clock. The secretary appeared in much better health than when he came here a little over a week ago. He had been stopping here with his daughter, Mrs. McCullum.
